Eyelash Extension Aftercare

Eyelash Extensions are a high maintenance beauty treatment. They require gentle care for the lashes to last longer and stay in good condition.

- Be gentle. Do not rub or pull on your eyelash extensions.
- Keep your Eyelash Extensions dry for 24 hours after your appointment, you may wash your face in the sink using a washcloth, avoiding the eye area.
- Keep all oil based products away from the eyes and remember that everything on your face will travel to the eye area.
- Oil WILL breakdown the adhesive and you will have premature lash extension loss so only use oil free make up remover and take care when removing make up from around the eyes.
- No saunas, steam rooms, sunbeds or excessively hot baths or showers for 24 hours after application.
- Try not to touch your lashes.
- Do not attempt to remove any lashes on your own, call us for an appointment.
- Brush your lashes daily.

Infills may be required every 2-3 weeks depending on your lash growth cycle.
