PDO Thread Lift Aftercare

Apply SPF30+ and avoid direct sunlight & sunbeds in order to prevent post inflammatory hyperpigmentation (PIH).

Gently wash the treated areas on the same day but do not rub or massage the face for 2 weeks.

Do not open mouth too wide for 3 - 4 weeks (avoid dental treatment for 2 weeks if possible)

A stinging or "pulling" pain or discomfort is normal. Take paracetamol 500mg 1 - 2 tablets 6 hourly as required. Avoid taking any anti-inflammatory medication such as Ibuprofen/Nurofen. Inflammation is necessary to initiate the new collagen formation process. Nurofen and similar medication will suppress this process.

Avoid alcohol and anti-coagulant medicine (aspirin, unless prescribed for medical indications) for 7 days.

Avoid blood 'thinning' vitamins C & E for 7 days.

Avoid temperature extremes such as saunas/steam rooms or very cold climate for 10 days.

Avoid physical exercise for 7 days.

Avoid having Radio Frequency(RF) or any heat producing device (laser, IPL, etc.) treatments on the thread treated areas for at least 10 weeks.

Anti-inflammatory medication may be taken after 7 days.

Stinging or "Pulling" pain discomfort is normal, This will subside over a 2 week period.

Scratchy sensation is normal; this will subside over a 2 week period.

Possible reactions may include infection, swelling or bruising. In very rare cases there may be a foreign body reaction.
